Venue:
Online Conference

Event Desciptions:

Our Virtual Business shows and exhibitions are events designed to bring together members from a wide range of business sectors. Our B2B Growth Expo Show is on 7th - 14th March 2023 and we are anticipating over 1500 businesses to be exhibiting.

There are multiple opportunities for you to showcase your business and services to increase your visibility to a wide audience at a budget that works for you.

In addition to having your own stand, you can attend virtual networking sessions, interact with the B2B Growth Hub team, be a keynote speaker, advertise and even sponsor an area.

The virtual show works much the same as a ‘real’ event. There is a reception desk, where you can register for keynote speakers, you can see a list of exhibitors and ‘wander’ around at your own pace from the comfort of your office or home.

If you purchase a stand, you can interact with potential clients, arrange meetings, show company videos, present product demonstrations and at the same time guests can collect your company literature and store it in their virtual briefcase.

The great thing with virtual exhibitions, is that they are far more cost effective and can reach larger audiences.
